Golden Gardens Glads Grow Gloriously

GOLDEN GARDENS GLADIOLUS

SAMUEL F. LANTZ

GOLDEN GARDENS, PARKESBURG, PA.

Greetings

To our many friends and customers we wish to extend our thanks for their patronage and favors in the past. We appreciate your business and are grateful for your support and consideration. We are very much encouraged and intend to carry on. We hope to supply you at all times with the finest of glads. Every glad offered in our list is superior in every respect. All are beautiful, exquisite, fine, tall growing modern varieties of recent introduction. They are selected from lists of the world's best hybridists, and all of them have been winners at recent state or national gladiolus exhibitions throughout the nation. They have real beauty and refinement and will make you proud when you grow them and show them. They are indeed a great addition to any garden as each variety listed has merit and is worthy of your consideration. Get started with some of these new and modern varieties of glads and you will surely become a glad fan if you have not done so already.

LOCATION: Golden Gardens are located in "The Garden Spot of the World", Southeastern Pennsylvania. Parkesburg is forty-four miles west of Philadelphia, and twenty-two miles east of Lancaster along the P. R. R. main line. Soil, climate, rainfall, in fact growing conditions, here are unsurpassed. I believe it is impossible to produce better bulbs anywhere. We are situated one mile west of Parkesburg.

From time to time we will continue to offer the best from growers and hybridizers from all over the world. I have some very fine seedlings coming along that look very promising.

GUARANTEE: We guarantee all our stock to be healthy, vigorous, free from thrips and true to name. We want you to be satisfied. If for any reason bulbs are not satisfactory when you receive them we will replace them or make a satisfactory settlement but not exceeding the purchase price of the bulbs. All quotations are subject to prior sale. If any stock is unsatisfactory tell us and we will try to satisfy you. If you like our bulbs and our service tell your friends.

ORDER EARLY: We urge that you place your order early so that you may not be disappointed. Our stock of some varieties is small due to the labor shortage and conditions beyond our control. As conditions improve and labor and facilities improve we will have larger stock. We do not like to fill orders received later than May. 15. Small bulbs and bulblets, May 1st. We are usually planting after that date. So we will not promise to fill orders after these dates even if we have the stock. But we will try. Orders are segregated as soon as possible when received and shipment will be made as soon as possible, weather conditions considered, or will be shipped at the time designated in your order. No substitutions will be made without your permission. If we are out of a variety you order, your money will be refunded unless you give us permission to substitute in size or variety. If so we will substitute the nearest color, size, and price range that we have in stock.

PREPAID CASH PRICES All orders from this list will be prepaid to points in the United States if the order amounts to three dollars or more. Please do not ask us to send an order C. O. D. unless you make a deposit of at least twenty-five per cent.

GOLDEN GARDENS GIVES GOLDEN MEASURE We always give some extra and will be pleased to have you mention any extra that you would like. We shall be governed accordingly.

GOLDEN GARDENS GLADIOLUS

CLASSIFICATION Instead of written descriptions I am listing my glads according to the North American Classification Committee as published by The North American Gladiolus Council, with the exception of new introductions which I am taking the liberty to describe. In addition to the floret sizes, color classes, name of the originator, year of introduction and number of days to bloom I am also stating the number of florets usually open at one time in good condition. This information is not entirely complete but I believe it is a step in the right direction. Future tabulations may obtain information as to the number of buds in color, length of flower head, length of entire plant, etc. Of course soil, climate, and variations in seasons may have considerable bearing on the performance of all plant life and with flowers we are dealing with nature's products rather than mechanical problems. Therefore we must consider flowers as they are and try to make improvements to suit our desires through selection and breeding. This our aim. We have accomplished much. Let us go forward then and try to make our world more beautiful with new, better and more beautiful gladiolus.

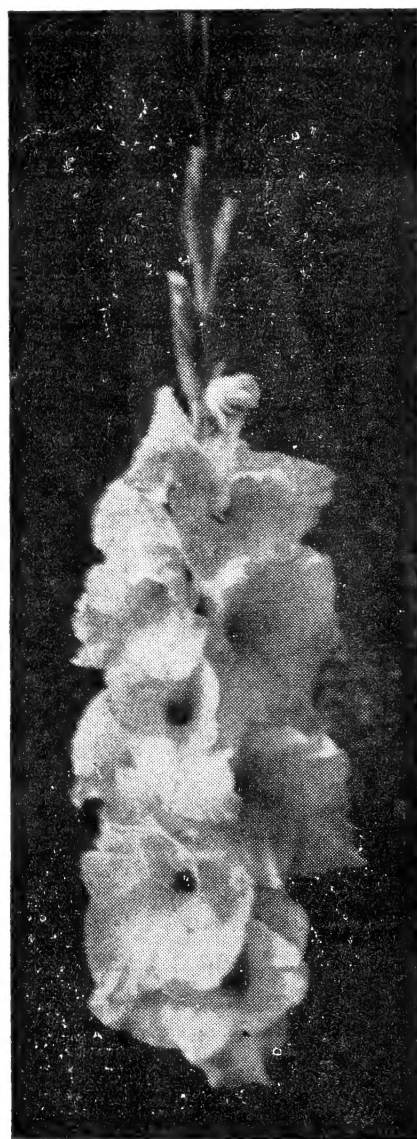

SIZES

- Miniature Glads 100—Florets under $2\frac{1}{2}$ ".
- Small Glads 200— $2\frac{1}{2}$ " through $3\frac{1}{4}$ ".
- Medium Glads 300—Above $3\frac{1}{4}$ " through $4\frac{1}{4}$ ".
- Large Glads 400—Above $4\frac{1}{4}$ " through $5\frac{1}{2}$ ".
- Giant Glads 500—Above $5\frac{1}{2}$ ".

MARGARET BEATON

KEY TO VARIETY LIST

Size and color classes are indicated by the code number; the first figure indicates a size group, while the last two digits give the color class. (See color table above). Name of the originator, usually abbreviated, follows the variety name. Next follows the year the variety was first available to American purchasers, and after that, for many of the varieties, will be found the number of growing days required from planting to date of blooming. The number of days to bloom is usually figured for large bulbs; medium sized bulbs usually require from 5 to 7 days longer to bloom. Because of variations in climate, the number of days required for a particular variety to bloom may vary by several days. However, the listed blooming dates will give a fair approximation of what to expect of a variety.

The number following the number indicating the days to bloom, shows the rating in color class. The highest number indicates that it is the best in its color class. The number following this shows the number of blooms usually open at one time with average culture.

GOLDEN GARDENS GLADIOLUS

Golden Gardens List of Fragrant Introductions

FRAGRANT GLADIOLUS ——— WHY NOT?

Perhaps you have been perfectly satisfied with the ethereal beauty of America's favorite flower, "THE GLADIOLUS," without considering how much more exquisite it would be, if it had fragrance.

Certainly if fragrance were added THE MODERN GLADIOLUS would be superior in every respect. WELL FRAGRANCE HAS BEEN ADDED.

YES, You can now have the glorious beauty of the GLADIOLUS combined with a delicate fragrance different from that of any other flower.

These new and modern GLADIOLUS have real beauty and refinement. They grow tall and straight, and open four to eight or more flowers at a time, measuring four to six inches in diameter. They are indeed a great addition to any garden and an inspiration to grow. You will be proud of them. THEY ARE SUPERIOR IN EVERY RESPECT.

Floret Size Color series	Variety	Originator	Year Introduced	Days to Bloom	Rating	No. Open	Price Lg. Bulb	Price Med. Bulb	Price Small Bulb	Price Bulblets
410	GOLDEN FRAGRANCE	Lantz	46	70		5	5.00	4.00	3.00	1— .50
Very beautiful light ruffled yellow. Opens 5 medium, large 4" to 5" florets on a medium tall spike. Healthy foliage, 16 buds with 4 to 5 showing color. This variety is intensely fragrant and a vase or basket in a room is really delightful. It has created a lot of favorable comment wherever shown, and won a first in its class, in the recent introduction showing at Binghamton Show in 1946. I have had plenty with 6 florets open this past summer. Florists love it for its delightful color, good substance and keeping quality.										
400	FRILLED FRAGRANCE	Ellis	43				2.00	1.50		
A sport of New Era. White with cream overcast. Quite ruffled, four to five inch florets, with a very delicate fragrance, similar to that of a lemon verbenaa. Tall straight grower, and a good propagator. Beautiful color combined with fragrance should give it added value to hybridizers. Stock scarce.										
462	DIADEM	Lines	46	80			10.00	10.00		1—1.00
This glad rates very high in comparison with other modern gladiolus. It grows 4½' to 5' tall, always straight, opens to eight 4½" to 5" florets with 5 or 6 buds showing color. Furthermore it has that beautiful light, orchid-rose color everyone loves so well. It has a delicate fragrance all its own which increases definitely as the flower continues to open and after cutting. I look for this to become very popular as an exhibition and as a commercial variety, and as a very fine home garden flower. It is healthy, propagates reasonably fast, and is definitely superior in every respect. It won fist prize for me in its class at Binghamton Show in 1946. Stock: Scarce and limited.										
301	PERFUME	Bauer	41				.25	.20		
Early ruffled creamy white with a rose dart in the throat. This is from a cross of two Mibloom Seedlings. Most fragrant.										
352	SUMMER FRAGRANCE	(Zim.	45	75		6	.25	.20		
A small decorative dark rose pink. It makes tall straight spikes and opens 4-6 well ruffled florets, a good seed producer.										
362	ROSE GEM	Fis.	45	70			.25	.20		
Medium rose with a large cream throat. Florets 3½", nicely ruffled with a waxy sheen. This is perhaps the best fragrant seedling of Incense to date.										

GOLDEN GARDENS GLADIOLUS

Golden Garden List of Recent Introductions

NOTE: One large, one medium, one small and indicated number of bulblets at Combination price as per last column.

Floret Size Color series	Variety	Originator	Year Introduced	Days to Bloom	Rating	No. Open	Price Lg. Bulb	Price Med. Bulb	Price Small Bulb	Price Bulblets	Comb. Price
400	BENISON	Pa.	43	80	81	8	.50	.35	.25	10—	.25 1.25
	White lightly tinted lavender, very beautiful. Opens as many as ten florets, always well placed, medium sized. Plants fifty inches tall.										
500	SILVER WINGS	Rit.	45	88	84	8	3.00	2.00	1.50	10—	2.00 8.00
	Sport of Picardy. This outstanding white raises the standard of the entire class of whites. The bud is definitely cream but the flower is white with cream tone. It is big, stylish and beautiful.										
501	EXCLUSIVE	Kru.	45	80	80	6	1.00				
	A giant wide open creamy white with a small rose blotch on lower petal. Spikes are moderately tall, delightful.										
401	HEAVENLY WHITE	Moses	44	81	81		.75	.50	.25	10—	.50 1.75
	Sport of Rosa van Lima. A sparkling pure white, no trace of cream. Sometimes has a lavender overcast. Small lavender feather in throat.										
506	ORIENTAL PEARL	Car.-Pue.	46	85	80	5	5.00	4.00	3.00	1—	.50 12.00
	This is a giant pure cream probably the largest, tallest and strongest cream in existence. Very heavy texture. Opens 4 to 6 blooms at one time. Flowerets sometimes reach 7" in diameter. Total 18 to 20 buds; opens well from tight bud; mid season; a prize winner; good commercial.										
406	LIDICE	Pa.	43	90		8	.25	.15	.10	10—	.10 .50
	Beautiful clear ruffled cream. Tall straight stem and always straight spike.										
510	CRINKLE CREAM	El.	40	86	82	5	1.00				
	Very large light ruffled yellow; lovely flower.										
512	SPOTLIGHT	Pa.	44	80		7	1.50	1.00	.60		3.00
	A very large, wide open flower. Deep yellow with small, scarlet blotch forming an unusually attractive and distinctive color combination. Blooms are large, beautifully placed on tall, straight, slender spike. The color gets you.										
511	DISCOVERY	Pa.	43	85			.50	.35	.25	10—	.25 1.50
	Heavenly light ruffled yellow with a small red spot in the throat. Beautiful. Does not open to well in water.										
510	MARTHA DEANE	Gui.	46			8	5.00	4.00	3.00	1—	.50 12.00
	Clear medium yellow and with small red line in throat. Opens eight when cut in bud; 18-20 buds with five showing color; grows 5 to 5½ ft tall, always straight.										
416	SUSQUEHANNA	Her.	43	85	83	8	.25	.15	.10	15—	.25 .65
	Clear peach buff with creamy throat; clear bright unusual color which everyone likes 4½" to 5" bloom on a good long flower head. Grows 4 ft. or over and is always straight.										
416	DR. WHITELEY	Ril.	43	85	80	7	.35	.25	.15	20—	.25 .85
	Clear yellow apricot with yellow throat. Opens 7 large well placed blooms. Tall, straight spike. Distinct variety. Good commercial and exhibition.										

GOLDEN GARDENS GLADIOLUS

Floret Size Color series	Variety	Originator	Year Introduced	Days to Bloom	Rating	No. Open	Price Lg. Bulb	Price Med. Bulb	Price Small Bulb	Price Bulblets	Comb. Price
316	AGLOW	Ridley	46			6	.75	.50	.25		1.25
Salmon buff shading to deeper salmon on outer petals Reddish salmon. Feather on lower petal color is improved under artificial light. 3½" flowerets; tall slender spike; heavy propagator; bulblets grow strong.											
416	MAYLING	Ha.	43	85	80	8	.15	.10	.05	15—	.25 .50
Pale, light, pinky, buff with lavender tint. Opens to 8 perfectly placed med. sized blooms on tall spike. Heavy substance and beautifully ruffled. Tall, slender straight stem. Fine show flower and a fine grower.											
420	GRENADIER	Pa.	44	85	80	10	2.00	1.25	.75	1—	.15 4.00
A light orange buff. Grand spike 7-10 open 18-20 buds grows 5-5½' tall. One of the best.											
520	LANTANA	Pa.	43	75	79	9	.25	.15	.10	—10	.25 .60
Orange shading through orange salmon with a golden throat. A new, very definite vivid color. Opens 7-9 well-placed blooms. Medium spike 4' tall. Good commercial; fine propagator.											
421	ORANGOLD	Spencer	44			6	.25	.15	.10	10—	.20
Light orange yellow and can be used as a florist yellow. Tall strong grower, with broad healthy foliage. Opens 5-6, with 4-6 in color on a 21 bud spike. Florets round, wide open lightly ruffled 5" to 5½". Easy propagator. Becoming very popular.											
524	KESTREL	Pa.	45	80		10	1.50	1.00	.60	1—	.05 3.00
Light orange salmon or salmon orange with creamy throat. Color is unique and a fine addition to a rather weak color class. Tall straight spike with 8-10 open. Total 20 buds. Fine propagator; Good commercial.											
425	CRACKER JACK	Allen	46	75	85	6	2.00	1.50	1.00	1—	.20 4.70
Color is orange with a yellow throat and a strawberry blotch. Formal type 4½" plain, round wide open flowerets; 14-16 buds; 6 flowerets open, 5-6 showing color. Flower heads 20 inches; height in field 48 inches. Bulblet production and germination excellent. Blooms in 70-75 days. A seedling of Picardy x Wasaga.											
530	BENGASI	Cv.	43	85	82	10	5.00	4.00	3.00	1—	.50 12.50
Beautiful lafrance pink. The color deepens toward the edge of the petal and blends into a white throat. 70-75" tall; flower head 36"; 18-22 buds on a spike 9 showing color; heavily ruffled flowerets 6" excellent texture. Blooms from any size bulb. Buds open well in water. Buds close to stem. Yellow green foliage. Outstanding commercial.											
532	PIONEER	LaS.	45	85	81	8	1.00	.75	.50	1—	.15 2.30
Dark shell pink blending to cream throat. Opens 6-8 formally placed blooms on 18 bud spike. Tall and distinctive strong grower; Heavy foliage.											
436	JUNE SCARLET	Spencer	45	60		6	.75	.50			
An extra early commercial scarlet. 5" filorets 5-6 Open, 4-6 in colon on 51" always straight slender stem. It blooms in competition with the shipped glads. Stock scarce, and very much in demand, so order early.

GOLDEN GARDENS GLADIOLUS

Floret Size Color series	Variety	Originator	Year Introduced	Days to Bloom	Rating	No. Open	Price Lg. Bulb	Price Med. Bulb	Price Small Bulb	Price Bulbets	Comb. Price
442	COVER GIRL	LaS.	45	90		12	1.00	.50	.35	1— .15	2.00
Medium pink 5-5½" blooms on long flower head. Strong grower and one of the tallest. Large heavy foliage; good grower and propagator; fine exhibition good commercial.											
440	YANKEE LASS	Sch.	46	80		10	7.50	5.00	3.00	1— 1.00	16.00
Beautiful shade of light shell pink without markings. Well-placed 5" flowerets in double row; 5' tall; straight stem.											
440	BLESSED DAMOSEL	Pa.	44	95	—	—	.50	.35	.25	20— .25	1.25
Glowing pink of distinctive shade; large blooms; lightly but beautifully ruffled.											
440	SALUTATION	Pa.	44	80	82	8	.25	.20	.10	10— .25	1.25
Fresh clean light pink with small spot of darker pink in the throat. Round lightly fluted blooms. Fine early commercial. Heavy substance.											
540	MISS VERMONT	Ha.	45	80		10	1.50	1.00	.50	2— .25	3.00
Light pink, tinted lavender shading to somewhat deeper throat. Several buds show color on a long flower head. Tall straight spike growing 4' tall. Good keeper and propagator.											
340	MARGARET JANE	Lantz	46	90		7	2.50	2.25	2.00	1— .25	
Light pink shading to creamy white in throat with small inconspicuous lavender blotch which adds greatly to its beauty, making a very beautiful combination of color, pink, white and lavender. Tall, straight spikes forty-eight to sixty inches tall, holding six to eight flowerets open. The buds are light pink with several showing color. Twenty inch flower heads. The flowerets are 3¾ inches in diameter. Mr. Howard V. Wright of the Maryland trial garden reports as follows: "The color was clean and attractive and the flowerets showed excellent substance and heat resistance." We have had good bulblet production with bulblets germinating well. Large strong growing plant, heavy dark green foliage. Spike does not crook in severest weather. Blooms in ninety days average time.											
452	BIRCH RED	Rich.	45	90		7	5.00	4.00	3.00	1— .50	12.25
The large pure deep red everyone has been looking for. Its sparkling beauty, purity of color, good habits, and vigorous growth, place it in a class by itself. Excellent texture, stands heat well in the field and opens well from tight bud. Very good attachment, fine placement, opens seven on a nineteen bud flower-head. A good prize winner and a good commercial variety.											
560	ROSE RUFFLES	Ha.	42	85		10	.35	.25	.20	10— .25	1.00
Beautiful shade of pink; not rose and not ruffled. Plants grow to 4½' with large bloom.											
560	ASTRID	Jack	46	80		8	3.00	2.00			
There is something really appealing about this clear medium colored rose variety. Grows five feet tall with 30" flower head. Opens 8-9 somewhat ruffled flowerets out of a total of 23 buds. Good propagator and grower; grows well from small stock. A show winner.

460	MISS WISCONSIN	Kru.	43	90	81	8	.80	.60	.40		1.75
	A beautiful new shade of lavender rose. It has bright color, medium propagation habits. It is free from crocks; very outstanding.										
566	ROSE O'Day	F.	44	70		10	.75	.50	.35	5—	.25 1.75
	An unusual shade of rose lavender that is very attractive and useful in floral work. Opens to ten large flowers in a double row. A very fine variety.										
566	MINSTREL	Pa.	44	85		6	3.00	2.00		1—	.25 5.00
	A gorgeous lavender pink that is sometimes flecked darker. Blooms are large butterfly form, ruffled and needle point, unusually long flower head with a number of large buds showing color. Blooms up to 6½" across.										
466	LAVENDER PRINCE	LaS.	44	85		6	.75	.50	.35	10—	.75 2.25
	A new and distinct shade of lavender. Tall straight spike; fine propagator; fine cut flower.										
466	BADGER BEAUTY	Kru.	41	85	—	5	.20	.15	.10	10—	.20 .65
	Beautiful lavender with creamy white throat. Wide open blooms; 17 buds medium tall plant. Rates very high.										
466	MYRNA FAY	Lines	46	75		9	5.00	4.00	3.00	1—	.50 12.50
	Ultra different. Grand Orchid lavender. Early, healthy and a fine propagator. Grows tall with nice stretchy flower head. Eighteen buds 7 to 9 open with five showing color. This will make a fine commercial cut flower variety as it is just the color the florist wants. I believe that this one and DIADEM the fragrant rose colored glad originated by Rev. N. H. Lines, of Meridian, Idaho, will be greatly appreciated by gladiolus growers everywhere.										
466	DEPENDABLE	Spencer	44			6	.35	.20	.15	10—	.30
	Fine cool shade of lavender with a darker lavender tongue in the throat. Tall straight spikes with 6 open and 6 in color, 4½" lightly ruffled florets. Dependable commercial even under adverse growing conditions. Fair propagator. Bulblets germinate easily.										
570	LANCASTER	Pa.	44	85		12	1.50	1.00	.60		3.00
	Clear dark purple with 8 - 12 lightly ruffled and waved blooms open on a tall straight spike. The plant growing 5' tall or more. A show winner.										
470	PURPLE SUPREME	Wil.	42	85			.20	.15	.10	15—	.10 .50
	Tall plant with many well-placed bright purple flowers. A fine exhibition and commercial variety. Produces quantities of bulblets that germinate well.										
462	FUSUA BELLE	Alm.	46			10	2.50	1.50	1.00	5—1.00	6.00
	Deep rose red of a glistening American beauty rose shade. Color is good and still better under artificial light; 5" blooms on tall straight spike.
